

OPIOID CENTERS OF EXCELLENCE

We provide free support
and education to help
individuals living
in York County
**find freedom from
opiate addiction.**

WHAT IS A CENTER OF EXCELLENCE?

An opioid center of excellence (COE) is a designated place of recovery, self-improvement, and sustained sobriety for individuals using opiates or opioids. Our COE teams work together to treat individuals with dignity and respect as they discover and maintain meaningful recovery. Find out more about our COE locations at pacounseling.com/coe.

GET INVOLVED

To get involved, call our York County COE location listed on the back of this flyer.

HOW DOES A COE WORK?

1 ASSESS

We help individuals develop a plan for any needs including childcare, housing, food, transportation, health insurance, employment, clothing, and recovery-friendly activities.

2 CONNECT

We connect individuals with medical services, including substance abuse treatment, mental health counseling, primary care, medication-assisted treatment, dental care, and more.

3 RECOVER

We provide education and support regarding addiction and recovery for individuals struggling with addiction, as well as for their family members, agencies, and community groups.

4 SUPPORT

We meet with individuals in their community to help them establish a recovery support network and reestablish and improve family and significant relationships.

Anyone struggling with **opiate addiction** and living in **York County** can participate.
